East Hebron Grange Fair.
East Hebron Grange held its annual fair at the hall, Wednesday, Oct. 10th. The weather was not what was desired and the bills and posters had announced that if stormy the fair would be postponed until the next fair day. At an early hour the telephone bell began to tinkle and enquire if the fair was decided to go ahead with it. By 10.30 the teams commenced to arrive. They came from Turner, Hebron, Auburn, Lewiston, Milot, Poland, Oxford, Paris, Sumner and Hartford.
There was a good display of fruit and vegetables in the hall. The collection was not large, but in quality, "Oh, my!" It was enough to make our mouths water. Then the ladies were out in force with the grand display of fancy work. The outdoor exercises were somewhat handicapped by the frequent showers. The drawing matches for horses were interesting. Fred Farris of Mechanic Falls carried away the honors in the heavy class. In the lighter class there were several entries among whom were Fred Keene, E. E. Conant, Guy Farris, Ward Harrington and Geo. H. Allen. Ward Harrington carried away the blue ribbon. In the evening an entertainment and social was given. The unanimous report was a good time enjoyed by all.

The spelling reform, which suddenly became slightly epidemic a few weeks ago, now appears to have reached the stage where newspaper writers and advertisers, who adopted it, are carefully selecting their language so as to get along without using any of the simplified words, and from present indications the spelling reform ad seems likely to be dropped entirely in the near future by the general public.

Some New England Superstitions
Gramp said that he knew we were going to have a dull day; for he heard it raining in the night about one o'clock, "and," said he, "I couldn't help thinking 'o' that old saying,
"Between twelve and two
You can tell what the day will do."
"It may cloud up or clear off later in the night; but the day will be what it was between twelve and two. If our dog comes into the house and puts his head under the mat I'm certain sure there's goin' to be a cold snap, and it comes every time. When the wind dies down with the sunset it will blow again the next day. A thunderstorm ain't good for eggs that are under a hen hatching. The chickens are apt to be crazy.
"March winds and May sun,
Make dun cloth white, and fair maids dun."
"I keep my young cattle in the pasture during the summer, but I bring 'em in when the weather is bad; and they know a great sight better than I do what the weather is going to be. They'll gather at the bars a good many hours before a storm comes—often when the sky ain't begun to show a sign of it.
"Dream of plucking fruit out of season,
And you'll quarrel without reason."
"When you're peelin' onions, hold a pin between your teeth and it'll prevent your cryin'. If you want to get rid of rats in the house, catch one and tar and feather it and turn it loose. All the rats will leave in a hurry. When I was a boy I'd sometimes play so hard I'd have a pain in my side. To cure it I'd lift up a stone, spit under it and put the stone back in its place. I wouldn't have any more trouble from the pain after that. If you begin to tell something and forget it what you were saying that is a sign it was true.
"Mend your clothes on your back,
Poverty you'll never lack."
"When the world was new the devil spent a lot of time sewing it with stones. He carried the stones in his apron, and where you see spots that that they are, you can know his apron strings broke there. To stop this houghs see how near you can hold your little fingers together without their touching. If you don't want to have the toothache, cut a little bit from each toe nail and finger nail. Then wrap the cuttings in a white paper or birch bark and put 'em in a hole by plugging and you ain't have any trouble with aching teeth as long as you live, though this won't prevent your losing your teeth by decay. You can cure rheumatism by putting mustard in your shoes.
"If you have the stomach ache,
Eat a piece of burnt cake."

The "Saxon" Sabbath.
After more than a century of abandon and vapid mirth, gay Paris is coming back to decency and decorum. Naturally the good work as far as it has gone, is not due to any initiative on the part of the Parisians themselves. The motive power which is driving Paris toward goodness is the new French government, which has found time among a variety of harder work, to compel the Parisian shop keepers to give their employees at least one day of rest in a week. The new enactment does not specifically command that the Sabbath shall be the day of rest with all classes, for exceptions are made to bake shops and other employees who perform labors of necessity, because one must live and eat, even on the Lord's day. But no matter what the hired man or the hired girl may be engaged to perform, both he and she must have one day in seven when he or she is not obliged to do any work for pay or otherwise.
No Need to Worry.
Folks who have been worrying for fear the world's supply of coal will soon be exhausted may be cheered somewhat by the news of the discovery of one new vein of coal on the Philadelphia and Reading property in Pennsylvania one day last week, which will require half a century of constant mining to exhaust. Statistics show that the coal deposits in North America are estimated to exceed \$51,000,000 tons. China is supposed to have practically an inexhaustible supply. The deposits of North America are greater than those in Germany, Great Britain, France, Austria, Russia and Belgium combined, and nearly equal to the total of all Europe. According to the figures submitted, Germany has enough coal to last 2,000 years at the present rate of consumption, but Great Britain will be exhausted in the relatively short period of 400 years. From these figures it appears that the people of this generation need have no fears of a real scarcity of fuel.

Continued from page 1.
P. Merrill and others gave just about the same testimony. The jury brought a verdict of not guilty for Mrs. S. and that Roland McPhee and Thomas Aket were guilty. The case of William Nolan, an aged resident of Rumford, was tried on charge of having liquor deposited at his place. According to Nolan's story the liquor was left at his place while he was away from the house. He did not know it was liquor as he saw the parties after wards and they told him it was a keg of pigs' feet. Stated that he wouldn't have had it there at all if he had known what it was. He never sold a glass of liquor in his life and being 77 years of age he didn't think he would begin now. Court instructed the jury that they should render a verdict of not guilty. Mr. Nolan was discharged.
Joseph Mitchell retracted his plea of not guilty to liquor and pleaded guilty. The case was continued for judgment. He gave \$500 bonds for his appearance at the March term of court.
A list of liquor cases are being ground out this term. Some of those not already mentioned are given here. He paid a fine of \$5 and costs taxed at \$20.52 and was discharged.
Two more cases of Rumford for sale of intoxicating liquors were not pressed on motion of the county attorney.

SOUTH PARIS.

Visited Atlanta, Ga.

The following is taken from the Ver-
mont Standard, which will be of local
interest as Mrs. Doubleday, nee Nellie
Louise Cotton, was the first woman
girl and grand-daughter of Hiram Ful-
fer, Esq., of South Paris.

Dr. and Mrs. A. W. Doubleday (nee
Nellie Cotton) of Boston, Mass., have
just returned from a most enjoyable
southern trip. They were present at
the National Dental Association which
has just held its convention at Atlanta,
Georgia, Dr. Doubleday being one of the
speakers. His address will be published
in the Cosmos Magazine. The Governor
of Georgia gave the Association a warm
welcome and the city was most liberal
with their hospitality to them. Among
other things they gave them an old time
Georgia barbecue at their Cold Spring
Club grounds.

On arriving there they were greeted
with bands of music and in the pit was
a whole ox and eight lambs, slowly
roasting to a finishing turn, showing
that rich brown which has long been
recognized as the greatest appetizer yet
found. Dr. Doubleday says to realize
and appreciate the deliciousness of the
meat it must be tasted. It was a min-
imum of the visitors that had ever at-
tended a barbecue before. On one of
the days of the convention Mr. and Mrs.
William Jennings Bryan were guests of
the city and Dr. and Mrs. Doubleday
the pleasure of shaking hands with them,
and Mrs. Doubleday was present at the
reception that the Atlanta Women's
Club gave Mrs. Bryan which was a royal
affair.

A feature of interest to Dr. and
Mrs. Doubleday was the U. S. Subma-
rine boats they saw while visiting New-
port News, Va. They also enjoyed Nor-
folk, Virginia Beach and Old Point Com-
fort.

lands of the State, must be accompanied
by a registered guide during the months
of May, June, July, August, September,

tion agent his hunting license, and the
agent must thereupon detach the proper
coupons and attach them to the game.

Paint Adds Value to Property

For every dollar's worth of
paint—good paint—you put on
your house, you add several
dollars to its value, for the dif-
ference in price which property
in good repair will bring over
a shabby building is by no
means measured by the actual
cost of the improvement.

In this calculation we have
not included the insurance fea-
ture—the saving of the property
from decay.

Good paint looks well, pro-
tects well, lasts well.

There are many imitations
of paint which do none of these
things, yet cost as much or
more than straight white lead
and linseed oil, the best paint.

Red Seal Pure White Lead

(Made by the Old Dutch Process)

is the acknowledged standard.

have been vexed when using cream of tartar and soda to find their work uneven. If sometimes good, at others the biscuit and cake will be heavy or sour or full of lumps of soda that set the teeth on edge. Flour, eggs and butter wasted. This is because the cream of tartar is adulterated or cannot be used in the proper proportions. Food always sweet and light can be assured only by the use of Royal Baking Powder exclusively. Royal is absolutely pure and healthful and does even work at every baking.

Former Pastor Dead.

The people of Sebago and Hiram will be grieved to learn of the death of the Rev. George P. Merrett of New York City, Monday night, after a short sickness with pneumonia. In 1895-6 Mr. Merrett was pastor of the Congregational church in Hiram and Sebago and did much for the spiritual welfare of the two places. He was a graduate of Mt. Herman school in 1893, Williams College in 1900, and a New York Divinity school in 1904. That same year he married Miss Wesleyan University graduate and took an extended wedding trip to his old home in England. After returning he accepted a pastorate in New York City, where he was residing at the time of his death.

A Righteous Hold-Up.

Seth Clemmons started for the band meeting, Monday evening, and as he stepped from his father's doorway into the road he heard the corn rustling as though some one was handling it. He hadn't gone but a little way when he saw two men coming out of their corn, each of them bringing an armful of corn. Seth spoke to them and told them they had better leave the corn at the barn. All he got back was a few slang words, then they put up the line. Seth went back to the house and took his father's large revolver and told his folks he would round them up before morning. He run out to the railroad and started up the line as fast as he could run. As the railroad and main road run side by side, it was pretty sure he would overtake them. He run half a mile before he came up with them and as they were driving fast he had to go some distance farther before he could catch them.

They saw him in the road ahead and they whipped their horses to get by for they mistrusted there might be something wrong. Seth stood in the middle of the road and ordered them to hold up, holding up his revolver at the same time. They halted and asked what the trouble was. Placing his revolver to their heads he told them they must carry the corn back and leave it at the barn. They begged and pleaded, said it was so far it would be too much for them to go back with the corn and they would settle with him for the corn if he would let them go on. They settled and paid pretty dear for the corn.
